Contract Supervisor signature: _____

Chevron Contact Signature: _____

All contractors must provide a valid government issued photo ID, current TWIC card and proof of safety training from the Houston Area Safety Council or other recognized safety training.

If a contractor does not have a valid TWIC card, he/she may be escorted. Security will issue a "No TWIC" tag allowing the contractor to be escorted by another contractor who has a valid TWIC card. The "No TWIC" tags are good for only 12 hours and must be renewed daily.

TWIC escorts must be "side by side companion" as described in 33CFR Ch. 1 part 101.105 definitions. This means the contractor being escorted and his escort must remain together the entire time in the secured/restricted areas.
